

Transducers takes Pride in Diversity!

You are cordially invited to an informal celebration
of diversity in our Transducers community.

We invite you to take pride in the academic and professional
environments that you create in your home institutions,
conferences, and professional networks.

The result is a growing gender, racial, and cultural diversity
at Transducers.

Please come for a celebration & networking event,
at which we will feature inspiring profiles
of leaders in our field.

All are welcome!

Tuesday, June 23, 1:00-1:30pm
K'enakatnu Board Room, 2nd Level
Cookies & coffee provided
Hosted by Draper Laboratory
